<tr>
<td>Semi-rigid expandable mesh protects the tip/lens of endoscopes from front and side impact. Also for protecting sensitive surgical instruments. Tip protector also allows moisture to escape, eliminating potential bacteria growth (<em>Pseudomonas</em> species) that can occur with most foam or solid protectors. Tip Protector is not abrasive / will not scratch any part of the scope / lens. Tip Protector securely fits many different sizes of instruments / does not fall off during transport &amp; storage. Small – Red: Protects instruments that are 2mm - 10mm wide - 100 ct / 1 case Large – Blue: Protects instruments that are 7mm - 15mm wide - 100 ct / 1 case</td>
